

En matières de solutions

DOMAINS OF ACTIVITIES		METAL	PLASTICS	LEATHER & PU	RESIN & WOOD
PRESTIGE MATERIALS					
DESIGN AND MOLDS	Co-design of components and parts	●	●	●	●
	Study and manufacture of sub-assemblies	●	●	●	●
	Design of molds and toolings	●	●		
INJECTION MOLDING AND MACHINIG	Injection	●	●		
	Heat and Cool thermoplastics injection		●		
	Forming of Composites		●		
	Overmolding		●		
	CNC Machining	●	●		●
	Stamping and deep drawing	●			
	Manual and Automatic polishing	●			●
SURFACE TREATMENTS AND DECORATIONS	Surface treatment of metal (Electroplating)	●	●		
	Surface treatment of Aluminum (Anodizing)	●			
	Metallization of plastic parts (Vacuum Metal)		●		
	Spray painting (Varnishing)	●	●		●
	Digital Printing	●	●		
	Pad printing, silkscreening and hot stamping	●	●	●	
	Pyrography				●
	Hydro Dipping	●	●		
3D sublimation	●	●			
ASSEMBLING	Assembly manual to automatic process	●	●	●	●
	ultrasonic welding and assembly		●		
	technical bonding and glueing	●	●	●	●
CONTROL AND ANALYSIS	control measuring machines	●	●		●
	QC checks (line and labs)	●	●	●	●
	control reports (function and dimensions)	●	●	●	●
	non destructive tests		●		●
