

DOMAINS OF ACTIVITIES		METAL	PLASTICS	LEATHER & PU	RESIN & WOOD
PRESTIGE MATERIALS					
<b>Design &amp; molds</b>	Co-design of components and parts	●	●	●	●
	Study and manufacture of sub-assemblies	●	●	●	●
	Design of molds and toolings	●	●		
<b>Injection molding and machining</b>	Injection	●	●		
	Heat and cool thermoplastics injection		●		
	Overmolding		●		
	CNC machining	●	●		●
	Stamping and deep drawing	●			
	Manual and automatic polishing	●			●
<b>Surface treatments and Decorations</b>	Surface treatment of Metal (Electroplating)	●	●		
	Surface treatment of Aluminium (Anodizing)	●			
	Metallization of plastic parts (Vacuum Metal)		●		
	Spray painting (Varnishing)	●	●		●
	Digital printing	●	●		
	Pad printing, silkscreening and hot stamping	●	●	●	
	Pyrography				●
	Hydro Dipping	●	●		
3D sublimation	●	●			
<b>Assembling</b>	Assembly manual to automatic process	●	●	●	●
	Ultrasonic welding and assembly	●			
	Technical bonding and glueing	●	●	●	●
<b>Control and Analysis</b>	Control measuring machines	●	●		●
	QC checks (line and labs)	●	●	●	●
	Control reports (function and dimensions)	●	●	●	●
	Non destructive test		●		●
